Proposed Regulatory Amendments to Title 5 of the California Code of Regulations Pertaining to the Child Development Permit

Executive Summary: This agenda item presents information related to the proposed amendments to Title 5 of the California Code of Regulations (CCR), §§ 80105, 80107, 80109, 80110, 80111, 80112, 80113, 80114, and 80115. The proposed amendments remove the outdated Child Development Permit Levels and replace them with the new Child Development Permit (CDP) matrix levels. As a result of the revised CDP Matrix, revisions to the Definitions were also added to clarify and make specific new terms. Additionally, outdated language to the application process is also proposed to be revised for consistency with existing regulatory language referencing application requirements. Plans to revise the Child Development Permit Matrix were approved at the February 2025 Commission meeting. Next steps are presented for Commission discussion and possible action.

Recommended Action: Staff recommends that the Commission review the information presented in this agenda item and, if appropriate, approve proposed amendments to Title 5 of the California Code of Regulations to the Child Development Permit.

Presenters: Renee Marshall, Administrator, and Debra Keeler, Consultant, Division of Standards, Accreditation, and Workforce Investment

Strategic Plan Goal

Educator Preparation and Advancement

- **Goal 1.** Educator preparation programs hold candidates to high standards and adequately prepare them to support all students by using culturally and linguistically responsive and sustaining practices in equitable, inclusive, and safe environments.
- **Goal 2.** Prospective educators have multiple pathways to explore and access careers in education and advance in the profession.

Proposed Regulatory Amendments to Title 5 of the California Code of Regulations Pertaining to the Child Development Permit

Introduction

The revised Child Development Permit (CDP) Matrix reflects a major step forward in meeting the goal of a clear, coherent, and inclusive permit structure. It responds to nearly three decades of evolution in the early childhood field and acknowledges the increased complexity of children's developmental needs, the importance of inclusive and equitable practice, and the growing diversity of California's early educator population.

Background

The proposed levels of the CDP matrix were approved in February of 2025 and continue to reflect a career ladder and lattice for early childhood educators that pave the way for interested holders of the permit to continue their path to a teaching credential. Consistent with the National Association for the Education of Young Children (NAEYC) licensure framework, the CDP Workgroup recommended that the permit matrix includes three educator levels (Early Childhood Educator (ECE) 1, 2, and 3) along with two administrator levels (Early Childhood Administrator (ECA) 1 and 2), each with specific scopes of practice and preparation requirements. Educators at every level are expected to master the standards and competencies for their roles, creating a clear pathway for effective practice, preparation program design, licensure requirements, professional development, and career advancement.

The updated CDP matrix introduces:

- Clearly defined and progressive permit levels aligned with field roles and responsibilities, from entry-level assistants to administrators.
- Performance expectations and competency-based approaches that prioritize demonstrated educator skill and readiness.
- Flexibility for experienced educators to advance through alternative routes.

Importantly, the revised structure retains and honors the expertise of the existing workforce, including those in Head Start, California State Preschool Programs, private centers, and family childcare. Through mechanisms such as coursework and classroom practicum experience in addition to recognition of on-the-job experience, competency-based assessments, and clear alternative pathways these strategies allow experienced educators to demonstrate mastery without repeating content they have already mastered in practice.

The structure also aligns with the CDP revised Performance Expectations and the California Formative Teaching Performance Assessment (CalFTPA) model, reinforcing high standards of preparation and practice. At the same time, it supports diverse entry points, including degree-bearing programs assuring access for new and continuing educators across varied settings and backgrounds.

By aligning permit requirements with educator competencies, licensure systems, and California's vision for quality and access, the revised CDP matrix serves as a strategic lever for systemwide quality improvement. It directly supports:

- Career mobility
- Coherence across licensing and preparation systems
- Increased supply of qualified educators for Universal Prekindergarten (UPK)
- Ongoing professional learning and permit renewal through meaningful, accessible pathways

Ultimately, the revised CDP is not just a permit structure. It is a workforce development framework that positions early educators to succeed and all children to thrive.

This agenda item proposes amendments in [Appendix A](#).

Staff Recommendation

Staff recommends that the Commission approve the proposed amendments to Title 5 of the CCR and promulgate regulations consistent with previous Commission action (February 2025) to adopt the proposed changes to the Child Development Permit structure and requirements. If approved by the Commission, staff will begin the 45-day public comment period, and, if no credible or objectionable comments are submitted during that period, staff is recommending that the Commission authorize staff to submit the final statement of reasons to the Office of Administrative Law including making any necessary, non-substantive changes to the regulation text that do not alter the requirements, rights, responsibilities, conditions, or prescriptions contained in the original text, without approval or consideration.
