RDI-TPA Workgroup Norms

- Be present. Be on time and participate. Take care of self as needed. We will take regular breaks; please refrain from checking email and doing other tasks
- Give and receive warm and cool feedback respectfully. We critique work and not people. Critical analysis is part of the continuous improvement process.
- Speak your truth and seek understanding of truths that differ from yours. Embrace different perspectives. Assume positive intent, take responsibility for impact.
- Notice power dynamics. Power shows up in many different ways – be aware of how you might be unconsciously using your privilege and power.
- Step up, step back. Be mindful of taking too much or too little space.
