RE: Addition of the Intern Program as a pathway to our PPSC program

Dear Commission on Teacher Credentialing,

We would like to add the Intern Program as a pathway to our PPSC program here in the MSW program at San Francisco State University.

In accordance with the School Social Work Precondition #3, before a candidate can be admitted into our Intern Program they will be required to:

1. complete year one of our MSW program including all of our year one MSW and PPSC coursework
2. complete their 1st year PPSC internship placement in one of our PPSC-approved sites

We also understand and agree that the Intern must be supervised and supported by both the employer and our program during the Intern Program.

Please let me know if you have any questions or need additional information.

Sincerely,

DocuSigned by:
