

Since I joined the grant, it has been a great support by all the staff that has been working in the grant. Whenever I have any questions, I can ask my advisor or my professor. My advisor and professor have been a support the 2 years I have been in the grant. I am grateful to have such great people helping so many students to become a teacher. They tell us their own experience of what they went through on their credential and the process of taking their exams. By hearing their stories, I know I can become a teacher as well and still have hope of becoming a teacher. Since I have been in this grant I have not given up and I know I will pass my exams one day by the support and help of the grant. The grant has been a great support not only financially, but they have been incredibly supportive in helping us on any exam we need help on. They take their own time to have a support session every Monday on a certain exam. The support sessions have helped me a lot to improve every time I go take the exam and I learned new techniques I can use when I go to take the exam. I am grateful to be part of this grant and have great people that believe in us to become future teachers. They believe in me, and I know I can do it and be a future teacher. Thank you for letting me have the opportunity to be part of a great grant and incredibly supportive people not only me but my fellow students.
